Table of content

Part 1: Introduction			
	Chapter 1:		
		1.1	Overview of Library Management
		1.2	Importance of Technology in Libraries
		1.3	Introduction to IoT in Library Management
Part 2: Fundamentals of Library Management			
	Chapter 2:		
		2.1	Library Operations and Workflow
		2.2	Cataloging and Classification Systems
		2.3	Collection Development and Maintenance
Part 3: Role of Technology in Libraries			
	Chapter 3:		
		3.1	Automation of Library Processes
		3.2	Digital Libraries and Electronic Resources

		3.3	RFID Technology in Libraries
Part 4: Internet of Things (IoT) Basics			
	Chapter 4:		
		4.1	Understanding IoT and its Components
		4.2	IoT Protocols and Communication
		4.3	Integration of IoT with Traditional Systems
Part 5: Applications of IoT in Library Management			
	Chapter 5:		
		5.1	Smart Shelf Management
		5.2	RFID-Based Inventory Tracking
		5.3	Patron Tracking and Analytics
		5.4	Enhanced Security Systems
Part 6: Challenges and Solutions in Implementing IoT			
	Chapter 6:		
		6.1	Privacy and Security Concerns

		6.2	Staff Training and Change Management
		6.3	Maintenance and Upkeep of IoT Infrastructure
Part 7: Case Studies			
	Chapter 7:		
		7.1	Successful Implementations of IoT in Libraries
		7.2	Lessons Learned from IoT Deployments
		7.3	Future Trends in Library Management and IoT
Part 8: Best Practices and Recommendations			
	Chapter 8:		
		8.1	Strategies for Successful IoT Adoption
		8.2	Maximizing Benefits and Minimizing Risks
		8.3	Continuous Improvement in Library Services
Part 9: Conclusion			
	Chapter 9:		
		9.1	Recap of Key Points

		9.2	The Future of Library Management and IoT
Part 10: Appendix			
	Chapter 10:		
		10.1	Glossary of Terms
		10.2	Additional Resources
		10.3	References
