

## College Partners with IBM for Tech Up Skilling

St. Vincent college collaborated with IBM SkillsBuild to offer a tech skills enhancement program for the students. This program focused on equipping participants with in-demand industry expertise. Students explored topics like cloud computing, data analytics, artificial intelligence, blockchain, IT support through interactive sessions led by IBM professionals. Hands-on workshops allowed students to apply their learnings, fostering practical skills valued by employers. This collaboration empowers students to graduate with a competitive edge in the ever-evolving tech landscape. The courses are provided free of cost to the college students so that they can learn and grow without any setbacks.
