Title of Event	English Entrance Test Conducted at St. Vincent College		
Date of Event	20 th July 2024	Place of Event	St. Vincent College
Objective of the event	To identify and train students as per their level of English		
Name of the resource person	Dr. Mareena Brahmane, Fr. Robert and Mr. Augustine Mendonza		

A short narration of the program

English Entrance Test Conducted at St. Vincent College

On 20th July 2024, St. Vincent College conducted an English Entrance Test for students with the aim of assessing their proficiency levels in English. This test was an essential step in placing students in the appropriate level of the college's English teaching courses—Basic, Intermediate, or Advanced—based on their current language skills.

The initiative was designed to ensure that students receive personalized instruction according to their individual needs, promoting effective learning and language development. The test was mandatory for all students enrolling in the English courses and included multiple sections to evaluate different aspects of language proficiency.

Structure of the Test

The test was structured into three key sections:

1. **Grammar and Usage:** This section assessed the students' understanding of English grammar, sentence construction, and correct usage of tenses, articles, and prepositions.
2. **Reading Comprehension:** Students were asked to read passages and answer questions to evaluate their comprehension, ability to infer meaning, and understanding of vocabulary within context.
3. **Writing:** A short essay or paragraph writing section was included to assess the students' writing abilities, coherence, and ability to organize ideas logically.

Purpose of the Test

The main purpose of the English Entrance Test was to identify the level of proficiency of each student so that they could be placed in the appropriate English course:

- **Basic Level:** For students with limited knowledge of English, requiring foundational support in reading, writing, and grammar.

St. Vincent College,

- **Intermediate Level:** For students who have a fair grasp of English but need to enhance their grammar, comprehension, and writing skills.
- **Advanced Level:** For students with strong proficiency in English, focusing on refining writing style, fluency, and critical thinking through advanced texts and discussions.

Post-Test Process

Once the test was completed, the results were carefully evaluated by the English faculty. Based on their performance in each section, students were categorized into the Basic, Intermediate, or Advanced levels. The results allowed the college to tailor the English language program to meet the specific needs of each group, ensuring that every student would receive the appropriate level of instruction.

The faculty also made arrangements to provide individual feedback to the students, highlighting their strengths and areas for improvement. This feedback helped students understand their current standing and the steps they could take to improve their language proficiency.

Conclusion

The English Entrance Test was an important step in ensuring that St. Vincent College could offer targeted English language instruction based on the diverse needs of its students. By placing students in the correct learning environment—whether Basic, Intermediate, or Advanced—the college aims to foster a more effective and personalized language learning experience. This initiative will not only improve students' proficiency but also prepare them for academic and professional success in an increasingly English-dominant world.

Name of the Collaborating Agency	St. Vincent College
Learning Outcomes of the Event for the Participants	The level of students English was identified and they were accordingly put in remedial English classes.
Learning Outcomes for the Organizing team	To instill confidence in the students by focussing on their soft skill abilities.
