## BACHELOR OF ARTS PROGRAM OUTCOME

PO NO	OUTCOME
PO 1	<b>Subject Knowledge:</b> Graduates will gain a solid foundation in English, Economics and Psychology, building critical domain knowledge over three years and staying informed about recent trends and practical applications.
PO 2:	<b>Critical Thinking, Problem Solving, and Research Skills:</b> Students will develop critical thinking, analytical problem-solving, and research skills through collaborative projects, peer learning, and independent tasks, preparing them for professional or research challenges.
PO 3:	<b>Skill Development:</b> The program focuses on both soft and hard skills, including communication, teamwork, and technical proficiency, fostering industry-relevant competencies through workshops and department activities.
PO 4:	<b>Industry Exposure:</b> Practical experiences like internships, industry visits, and guest lectures will bridge theoretical knowledge with real-world application, preparing students for careers in competitive exams, journalism, teaching, and government services.
PO 5:	<b>Leadership and Citizenship for a Sustainable Future:</b> Students will develop leadership qualities and social responsibility through participation in field visits, environmental projects, and NSS activities, addressing societal and environmental challenges for a sustainable future.
These outcomes ensure graduates are well-rounded, equipped to excel in both personal and professional spheres, and contribute positively to society.
